

Fortebraccio 05 Sport med kontakt, 60W

The evolution of typology: with the wall and ceiling version of the Fortebraccio 05, Alberto Meda and Paolo Rizzatto once again set new limits for efficiency and usefulness. Innovation is found, among other areas, in the distinctive handle, which can be used to accurately adjust the luminaire without burning your fingers. The wall bracket can also be used for installation on the ceiling. The Fortebraccio in soft-touch black is the latest version and gives the metal structure a surprisingly pleasant, soft effect.
