

Tolomeo Tavolo

Famous for its multiple award-winning design and notorious for offering maximum flexibility: the Tolomeo Tavolo. The adjustable arm with a sophisticated spring balance system is the hallmark of this filigree desk lamp. However, the Tolomeo lamp head can also be rotated in all directions. It is ideal for providing flexible zone lighting for VDU workstations. In normal use, an area of approximately 80cm x 80cm is illuminated and the light is bright, cosy and pleasantly soft. And that is not all: it also offers a hint of ambient lighting which softly illuminates the ceiling through a small opening in the head of the lamp. The contrast created by the fully-satinised surface of the head and the shining, polished aluminium on the foot and arm which are included with the lamp is the icing on the cake for this design.
