

Tolomeo Mini Parete

Over a radius of 100 cm, the Tolomeo Parete wall light softly and pleasantly focuses light. And when it is not being used, it can be made compact so that it does not get in the way. No wall outlets are required for the installation of this light; you simply need to screw it on and plug it in. All done! The 2m cable gives you plenty scope. The adjustable arm with a sophisticated spring balance system and the lamp head which rotates in all directions provide maximum flexibility. The Tolomeo Parete made from light aluminium shines a bright, zoned light suitable for sofas and armchairs, beds and desks. The switch which is integrated into the head of the lamp makes it convenient to operate. And that is not all: it also offers a hint of ambient lighting which softly illuminates the ceiling through a small opening in the head of the lamp. The contrast created by the fully-satinised surface of the head and the shining, polished aluminium arm is the icing on the cake for this design.
