

Tolomeo Lettura

The Tolomeo Lettura softly and pleasantly focuses light. This filigree, classic design made from light aluminium shines bright, zoned reading light onto sofas and armchairs. It can be conveniently operated from your seat using the switch which is integrated into the head of the lamp. And that is not all: it also offers a hint of ambient lighting which softly illuminates the ceiling through a small opening in the head of the lamp. The adjustable arm with a sophisticated spring balance system and the lamp head which rotates in all directions provide maximum flexibility. The contrast created by the fully-satinised surface of the head and the shining, polished aluminium on the foot and arm is the icing on the cake for this design.
